Number of Places: up to 16

Deadline to Apply: 14.01.2018, 23:59 CET

Application form: [Here](#)

Send application to: t4t-applications@leestec.net

Dear EESTECers,

The 10th edition of Training 4 Trainers is scheduled to be organized between the 14th and the 23rd of March 2018 in cooperation with LC Sarajevo, who has taken the honour of hosting this special event.

Why would I want to be a trainer in EESTEC?

At the heart of our association lies the spirit of EESTEC. The values that bind us together, even though we are seemingly different. They are not some abstract concept, but rather are supposed to be embodied by every EESTECer, on every event and beyond that.

We as the Training Team play a fundamental role in conveying our values to new members and in demonstrating what EESTEC means because by our own example we inspire others to live our ideals to the fullest.

Training is an elementary instrument in any growing and learning organization. It serves to teach new skills, develop characters, pass on knowledge from one generation to the other and instil ideals.

In its relatively short history in EESTEC, the Training Team has already become a renowned part of the association and over the course of the past ten years has been continuously developing our association and supporting its growth on the local and the international level.

You too can be part of the EESTEC Training Team. Training 4 Trainers is your first step towards this.

What is Training 4 Trainers about?

Training for Trainers is the starting point for EESTECers to enter the Training Team. An international training event conveying the attitudes, skills and tools complementary to participants experience and enthusiasm, which will enable them to be effective and competent members of the training team in the future.

EESTECers who participate in Training 4 Trainers will go through intensive, possibly life-changing, 10 days-long trainings. They will attend working sessions and practical parts. They will learn how to transfer their knowledge. Which methodologies to use. How to put everything into one box and eventually - how to deliver training sessions!

As a participant, you will work with a partner on the chosen topic. By putting the theory, gathered during the event, into practice, you will prepare and deliver your very own session.

How to apply?

If you are up for the challenge and wish to contribute to EESTEC over the next years, fill the application form carefully and seriously and send it to t4t-applications@eestec.net. Within 24h you will get information about receiving your application. If not - contact us directly to get the confirmation.

The deadline for applications is 14.01.2018.

Selection process

In the selection process, some of the criteria will be:

- understanding of a trainer role and trainer characteristics,
- experience in working with people,
- EESTEC spirit,
- English skills,
- Availability,
- General situation of trainers in the region.

Final decision will be made based on the overall situation!

WARNING

The capacity of T4T is limited! At the same time interest in it is huge. Therefore, by applying for this event you are accepting the terms and conditions:

1. *Spots on T4T are not granted, therefore everyone can be rejected.*
2. *You are willing to learn and develop yourself*
3. *You want to improve EESTEC in general and Training Team in particular, therefore you are willing to be an active member of the **international** Training Team.*

What awaits you after Training 4 Trainers?

As aforementioned, Training 4 Trainers is an entrance ticket to the EESTEC Training Team. As one of us, you will have a chance to intensively improve our organization, work on internal projects and represent the team wherever you will appear.

The most common opportunity to represent us will be on training sessions delivered by you. Having a title of Trainer Candidate will entitle you to hold training sessions as an EESTEC Training Team representative.

Electrical Engineering STudents' European assoCiation

We will be glad to answer your questions, so please feel free to ask anything you have on your mind at t4t-trainers@leestecdotnet.

Looking forward to your applications.

On behalf of the T4T trainers,
Viktoria Paschalidou
